### OUR CONNECTION

The First Nation people understand the importance of connection to the land and water ways because they have lived off the land for thousands of years. Warriors have hunted and gathered for families to survive. Their song lines and the dreaming are their spiritual guides. They value the land, which provides for them in return.

### THE ARTIST

Daniel Evans is an accomplished Indigenous artist, mentor, and fitness coach who has made significant contributions to the Australian Indigenous community. He is the founder of Walkabout Warriors, a mentorship program that focuses on building better mindsets and promoting resilient mental health.
